

Section Five
***New York State Public High School
Athletic Association, Inc.***
(www.sectionv.org)

January 15, 2003

- 1) In Sectional rounds other than semi's or finals, 75 miles will be the maximum one way mileage when there is school for either school the next day. In the event that there is a need to choose a neutral site neither school should travel more than 50 miles. Any advantage should be given to the higher seed as the sport committee moves from the center point.

- 2) In Sectional rounds other than semi's or finals, where there is no school the next day for either school and the mileage exceeds 75 miles, the contests will be held at the higher seed. The visiting team may petition the sports committee to play the following day. Final decision will rest with the committee.

- 3) For semis and finals, any site including predetermined sites may be appealed individually or jointly to the respective sports committee for a change of venue. Final decision for such a request rests with the sports committee.

- 4) It is recommended that joint appeals to the committee be honored except when extenuating circumstances are present.

Note: As approved by Section V, all sports will use ***www.mapquest.com*** as the official guide for mileage distance. Schools will be given an appropriate period of time, as determined by the Executive Committee, to appeal a mileage they feel is incorrect.
